File No. 19(2)2018-19E1 (P) TV  Dated: 30.05.2019

The Draft specification of the upcoming tenders is enclosed herewith to offer comments, if any and may also submit their budgetary quote by due date at e-mail address ddpurchase401@yahoo.co.in or on following Address:

Assistant Engineer
Room No. 403,
Directorate General: Doordarshan,
Doordarshan Bhawan,
Copernicus Marg,
New Delhi -110001 (India)
Telephone: 011-23114401

Specification no: SD 07/ 2019 Dated: 29.05.2019

Due Date to offer Comments: 13.06.2019

Encl.: As above (09 Pages)
1. **SCOPE:**

The specifications lay down the performance characteristics of a High Definition broadcast quality multilingual Graphics & Character Generator (CG) to be used in Studio/OB Van for transmission, production and post-production applications in Doordarshan network.

2. **GENERAL:**

2.1 **Offered product should be from an internationally reputed manufacturer and the quoted model should be field proven and in use by leading broadcasters. The bidder should essentially submit the list of the broadcasters to whom the quoted model has been supplied. The tenders without the proper user list shall liable to be rejected.**

2.2 The offered system should be capable of generating titles in English, Hindi and in other Indian languages including Urdu. The offered product should support open type unicode fonts for regional languages as detailed in Appendix-I. The required fonts will be part of the offer.

2.3 The High Definition Graphics & Character generator is required for the generation of graphics, animations, title captions etc. with different colour, texture and image background.

2.4 It should be possible to Genlock the character generator to an external reference sync so that it can be mixed, dissolved, cut and keyed in the production switcher.

2.5 The bill of material is given in Appendix-II.

2.6 The bidder is required to provide the complete list of items, software, accessories etc. offered to meet the specifications requirement in the following proforma:

---

*Specifications for Procurement of High Definition Graphics & Character Generator System: SD 07/2019 Dt.29.05.2019*
2.7 The equipment are being procured for various Doordarshan centres as per Appendix-IV.

3. **ESSENTIAL FEATURES:**

The offered character generator should have following features as mentioned below:

3.1 The High Definition character generator should be based upon user friendly drag and drop graphical user interface and should be easy to use in live environment.

3.2 It should be possible to create single line as well as multi-line text on a single page. It should also be possible to create multiple pages in a document.

3.3 It should be possible to create multiple layers in a page.

3.4 It should have multiple simultaneous crawls in right to left (RTL) and left to right directions (LTR), rolls, and tickers.

3.5 It should support various graphics file formats such as TGA, JPEG, BMP, TIFF etc., animation and video file formats.

3.6 It should have analogue as well digital clocks with variable size and positions. It should also have count up & count down time display.

3.7 The High Definition Graphics & Character Generator should have animation effects for text and logos including cut and paste tools.

3.8 The High Definition Character Generator should facilitate transition effects between pages as well as texts. It should be possible to provide some basic animation to these effects.

3.9 It should support 2D effects for graphics, objects, fonts etc.

3.10 It should have various character attributes like normal, bold, italic, underline, borders, shadows, highlight, expand, compress, til, rotate, transparencies etc.

3.11 It should have customizable Safe Title Area marking facility.

3.12 The system should have video & still frame grab facility and should also have a media store.
3.13 The High Definition character generator should have anti-aliased fonts.

3.14 It should be possible to edit ON AIR (Program output) page without disturbing Program (PGM) output until edit is executed. It should also be possible to edit on a page while the other page is on air.

3.15 It should have Gigabit Ethernet and USB interface ports.

3.16 It should have broadcast quality latest generation Video I/O card supporting HD-SDI video.

3.17 The system should have appropriate GPU support to the application software running on the system so that full utility and smooth flawless operation of the offered software is realized.

3.18 The system should support easy creation of customized templates.

3.19 System should provide functional support to access and import data directly from third party database, text files, spread sheets, data from RSS feeds and should have provision to display and generate line/ bar graph and pie charts etc.

3.20 The offered system should have facility to integrate sources from social media like Facebook, YouTube and twitter.

3.21 **System should provide dedicated HD-SDI video preview output independent of the main program HD-SDI output.**

3.22 System should provide a separate key out for Program output.

3.23 Necessary breakout box/cables should also be offered for easy access and to and from connectivity to the I/O card of the system.

4. **TECHNICAL SPECIFICATIONS:**

4.1 **I/O Card:**

(V) Colour Processing : 1.07 billion colour palette

(V) Power supply : 230±5% V AC, 50 Hz

4.2 Hardware Configuration:

The minimum hardware configuration of the envisaged system is as below. However, the bidder can offer a superior hardware configuration, if required, by the system & application software to ensure full performance of the offered product. The bidder must enclose a certificate from the application software vendor that the offered hardware configuration will ensure full performance of all the features available in the offered software.

Specifications for Procurement of High Definition Graphics & Character Generator System: SD 07/2019 Dt.29.05.2019
(g) **Network controller**: Integrated 10/100/1000 LAN

(h) **GPU**: Recommended Graphics card /onboard Graphics to support full feature and smooth flawless operation of the installed software of the offered system

(i) **I/O interfaces**: USB ports, RJ45 ports

(j) **Peripherals**: Mouse, Keyboard and good quality speakers

(k) **Monitor**: 21.5" or higher viewable, LED backlit TFT active matrix LCD with protective shield, Resolution Full HD 1920x1080 or better, Brightness 250 cd/m² typical or better, Viewing Angle Horizontal & Vertical 178° each and 5 ms response time.

(l) **Power Requirement**: 230±5% V AC, 50 Hz

5. **SOFTWARE:**

(a) All the necessary & essential software including OS required for proper working of the system is to be supplied in original and should be licensed to Doordarshan with perpetual validity.

(b) The bidder will provide up gradation of all the offered software free of charge during the guarantee period. The bidder will be required to give undertaking to this effect along with the bid.

6. **ACCESSORIES:**

All the essential Hardware and software accessories, such as breakout cable/box, power cords, software Plug in/patches/applications etc. are required to be quoted essentially. The firm has to ensure the completeness of the offer.

All the Optional items may be quoted separately. The firm must provide enough details about optional items to decide its utility.

7. **COMPLIANCE:**

a) A point by point full compliance statement laid down in the specifications from the principal manufacturer is to be enclosed
along with the offer in the format given below. Mere signature on the copy of DD specifications shall not be accepted as a compliance statement.

The figures so mentioned should be supported by record of these in the technical literature enclosed with the tender and reference to the page number of enclosed literature for all features and technical specifications should be mentioned in the relevant column. Offers without the compliance statement or with incomplete compliance statement will liable to be rejected with the sole responsibility of the bidder. Any deviation from the specification detailed in the compliance statement is to be highlighted separately.

<table>

</tr>
</tbody>
</table>

b) In addition to above, a separate point by point compliance statement duly signed by the bidder in respect of all the points laid down in the specifications should also be submitted along with the bid by the bidder in the above mentioned proforma.

8. TECHNICAL LITERATURE:

One set of technical manuals/brochures of the offered equipment are required to be provided along with the tender to facilitate the technical evaluation, otherwise the tender is liable to be ignored. The successful bidder will have to supply a set of technical, user and installation manuals.

9. DEMONSTRATION:

If necessary, the bidder may be asked for demonstration of the offered system as part of the technical evaluation. In such case the bidder will have to make suitable arrangement for the demonstration of the offered
system at Doordarshan Bhawan, New Delhi, on notice of 15 days. Accordingly the bidder should be in readiness for demonstration.

10. GUARANTEE:

a) With reference to the clause no.8.2 of the “General Terms And Conditions (GTC)” under ANNEXURE-II of tender document, the complete system including all items/equipment should be guaranteed for three years of trouble free operation from the date of commissioning. In case of any item or equipment failure including software and hardware within this period shall be rectified or replaced free of cost to Doordarshan.

b) The guarantee should cover all hardware, software and modules of the complete system.

11. DELIVERY PERIOD:

The delivery period will be 03 months.

12. TRAINING:

The bidder should offer 03 days operation and maintenance training on the offered equipment for Doordarshan Engineers. The bidder has to provide the comprehensive training material in the form of hard copies, as well as soft copies to the trainees during the training session.

The training will be conducted at one Doordarshan Centre in each concerned Zone as indicated in Appendix-III.

13. INSPECTION:

The equipment shall be subjected to inspection by Doordarshan officials at New Delhi.

14. ENCLOSURES:

The bidder must necessarily upload the following documents along with the technical bid:

a) An undertaking as required vide clause 5(b).

b) Compliance statement with respect to all the points of the specifications duly signed by the OEM should be submitted for offered equipment/item(s) in the proforma mentioned in clause no. 7.(a). The reference to the page number of enclosed literature for all features and

Specifications for Procurement of High Definition Graphics & Character Generator System: SD 07/2019 Dt.29.05.2019

Page 7 of 9
technical specifications should be essentially mentioned in the relevant column of the compliance statement.
c) A separate point by point compliance statement duly signed by the bidder in respect of all the points laid down in the specifications for the offered equipment/item(s) in the proforma mentioned in clause no. 7.(b).
d) Technical manuals/detailed technical literature/catalogues for the offered equipment/item(s) for substantiating the model no. and technical specifications.
e) Model specific user list of the offered product(s).
f) Any other document mentioned elsewhere in the tender document.

The tender is liable to be rejected in the absence of the above enclosures with the sole responsibility of the bidder.
