Quarterly payment on satisfactory completion of work/services (Note: Bidder will submit invoice accordingly.)

Further the contractor/supplier/firm should submit all the bank details such as;

a. Name of the Bank b. Branch c. Account Number d. IFSC e. MICR Code along with their bill for online payment (if possible, a Photostat copy of the cheque leaf may be enclosed).

(Note: GST shall be paid against an order. Supplier will submit invoice accordingly.)

2.23.2 The payment shall be made upon submission of Copy of Inspection report attached with the invoice.

2.24 UNSOLICITED POST TENDER MODIFICATION

2.24.1 In case certain clarifications are sought by this Organization after opening of tenders, then the reply of the bidder should be restricted to the clarifications sought.

2.24.2 Any bidder who modifies his bid (including a modification which has the effect of altering the value of his offer) after the closing date without specific reference by this Organization shall render the bid liable to be ignored and rejected without notice and without further reference to the bidder.

2.24.3 Canvassing in any form by the bidders shall also render the bid liable to be ignored and rejected without notice and without further reference to the bidder.

2.25 CLARIFICATION IN RESPECT OF INCOMPLETE OFFERS

2.25.1 This Organization has to finalize its purchase within a limited time schedule. Therefore, it may not be feasible in all cases for this Organization to seek clarifications in respect of incomplete offers. Prospective bidders are advised to ensure that their bids are complete in all respects and conform to our terms and conditions and Bid Evaluation Criteria of the tender. Bids not complying with this Organizations' requirements may be rejected without seeking any clarifications. However, during evaluation and comparison of bids, Prasar Bharati at its discretion, may ask the bidder for clarifications on the bid. The request for clarification shall be given in writing by registered email Id or through e-procurement Portal, asking the Bidder to respond by a specified date, and also mentioning therein that, if the Bidder does not comply or respond by the date, his Bid will be liable to be rejected. Depending on the outcome, such tenders will be ignored or considered further. No change in prices or substance of the bid shall be sought, offered or permitted. No post bid clarification at the initiative of the bidder shall be entertained.

2.25.2 The Bidder shall quote the prices in 'figures' & words. There should not be any discrepancy between the prices indicated in figures and the price indicated in words. In case of any discrepancy, the same shall be dealt as follows:

2.25.2.1 When there is a difference between the rates in figures and words, the rate which corresponds to the amount worked out by the Bidder (by multiplying the quantity and rate) shall be taken as correct.

2.25.2.2 When the rate quoted by the Bidder in figures and words tallies but the amount is incorrect, the rate quoted by the contractor shall be taken as correct and not the amount and the amount corrected.

2.25.2.3 When it is not possible to ascertain the correct rate, in the manner prescribed above, the rate as quoted in words shall be adopted and the amount worked

2.26 AFTER SALES SERVICE. Applicable as per Appendix D

2.27 REPLACEMENT/ RECTIFICATION

In the event the stores supplied or SITC/SETC carried out against the contract are found to be defective, the

supplier/contractor will have to take back the defective materials at his own cost and replace/rectify the defects of the Stores/SITC/SETC free of charge without loss of time. The supplier will not be entitled to dispose of the store/equipment/material given for replacement/rectification without the prior permission of this Organization. All charges concerned with the rectification including freight charges will be borne by the supplier/contractor.

2.28 EVALUATION/ SCRUTINY OF BIDS.

In evaluation of the techno-commercial bid, conformity of the eligibility/qualification, technical and commercial conditions of the offered goods to those in the bid document is ascertained. Technical requirement, incorporated in the Appendix-D of tender documents will also be considered in the manner indicated therein. Evaluation will be based only on the conditions included in the tender document.

2.29 SIGNING OF AGREEMENT

2.29.1 Prasar Bharati will award the Contract to the successful Bidder, who, within 'fifteen [15] days' of receipt of the same, shall sign and return the acknowledged copy to Prasar Bharati.

2.29.2 The successful Bidder/Contractor shall be required to execute an 'Agreement' in a Performa on a 'non-judicial stamp paper' of appropriate value [cost of the 'stamp-paper' shall be borne by the successful Bidder/Contractor] and of 'state' specified only, within 'fifteen [15] days' of receipt of the "Letter of Acceptance [LOA]" of the Tender by the successful Bidder/Contractor failure on the part of the successful Bidder/Contractor to sign the 'Agreement' within the above stipulated period, shall constitute sufficient grounds for appropriate action per tender provisions.

2.29.3 If the Bidder or any employee of the Bidder or any person acting on behalf of the Bidder, either directly or indirectly, is a relative of any of the employee of Prasar Bharati, or alternatively, if any relative of an employee of Prasar Bharati has financial interest/stake in the Bidder's firm, the same shall be disclosed by the Bidder at the time of filing of tender. The term 'relative' for this purpose would be as defined in Section 6 of the Companies Act 1956.

2.29.4 The Bidder shall not lend to or borrow any money from or enter into any monetary dealings or transactions, directly or indirectly, with any employee of Prasar Bharati

2.30 EMPLOYMENT BY FIRMS TO OFFICIALS OF THIS ORGANISATION.

Firms/companies who have or had business relations with the Organization are advised not to employ serving employees of this Organization without its prior permission or within the initial one year period after the retirement/resignation/severance from the service without specific permission of this Organization. This Organization may decide not to deal with such firms who failed to comply with the above advice.

2.31 CANCELLATION /RESCISSION:

The Bidder shall be liable to pay compensation for any loss or damage to Prasar Bharati resulting from any cancellation/rescission due to the reasons attributable to the Bidder and the Prasar Bharati shall be entitled to deduct the amount so payable from the amount due to the Bidder.

- 3.13.4** The Contractor shall provide and deliver free of charge for tests/analysis by an independent authority at any such place or places as the Organization or its authorized inspector may reasonably require such raw material (s) used or intended to be used for the contracted work by the Contractor as the Organization/Inspector shall consider necessary. The cost of such tests/analysis shall be borne by the Contractor.
- 3.13.5** This Organization shall be entitled at all times, whether prior to, during or after the completion of inspection by itself and/or through inspectors appointed by the Organization at the Organization's cost, to inspect, test and/or analyses and/or to direct the Supplier/Contractor in all respect of any store(s) or materials processes used or proposed to be used in the fabrication of the product of any of them. The said inspection, tests and analysis as far as required, is to be conducted in the presence of the inspectors. The supplier/contractor shall ensure that the inspecting personnel referred to above are given free access to all the required places and information connected with their work, besides working facilities to carry out their function.
- 3.13.6** Should the supplier/contractor fail to comply with any of the provisions aforesaid relating to inspection, testing and /analysis the Organization shall be entitled by itself and/or through inspectors to conduct or have conducted the inspection, test and/or analysis at the risk and expense of the supplier/contractor in all respects.
- 3.13.7** No rejected raw materials shall be used for the contracted work or re-tendered for inspection and/or test except with the prior permission of concerned Inspectors.
- 3.13.8** Unless otherwise specifically authorized by the Organization in writing, the supplier/ contractor shall not ship or dispatch for shipment under the contract entered into, any material which has not been properly inspected/tested marked and in respect of which a certificate of quality has not been issued or signed by the inspectors.
- 3.13.9** In addition to the general conditions of the inspection stated above, the supplier/ contractor shall also satisfy all the specific conditions of inspection as enumerated in the specification attached.
- 3.13.10** In addition to inspector(s) the Organization shall be entitled to nominate, depute or designate a representative to be stationed at the supplier's/contractor's factory in order to supervise and/or coordinate operations related to the contract. In the event of there being more than one factory involved in the work entrusted to the supplier/contractor, the Organization shall be entitled to nominate/depute or appoint such representative(s) as necessary in respect of each such factory.
- 3.13.11** The supplier/contractor shall ensure that the material to be supplied against this order shall be individually inspected, tested and analysed in terms of the specifications attached to the tender and the relevant codes and practices specified therein by expression or implication. Necessary test reports shall be provided as required.
- 3.13.12** The posting of such a representative by the Organization or his actions in any manner does not absolve the supplier/contractor of any liability, and/or responsibility under this contract. The representative's posting shall be treated as advisory to the Organization.
- 3.13.13** For false calls for the cases where material is rejected on inspection, the supplier/ Contractor will bear the actual cost of inspection incurred/suffered by the Organization.
- 3.13.14** Place of inspections specified in supply order will not be changed without written confirmation from the Purchase Authority.
- 3.14 SUB-STANDARD MATERIAL/REPLACEMENT OF REJECTED GOODS**
- 3.14.1** If the Organization finds that MATERIAL supplied are not of the correct quality or not according to specification required or otherwise not satisfactory owing to any reason of which the Organization will be the sole judge, the Organization will be entitled to reject materials, cancel the contract and buy its requirement in the open market at the risk and cost of supplier, reserving always to itself the right

to forfeit the security deposit/performance bonds placed by the supplier for the due fulfillment of the contract.

- 3.14.2** Rejected goods should be removed and replaced within 14 days of the date of communication of rejection.

3.15 SUBLETTING AND ASSIGNMENT

The contractor shall not save with the previous consent in writing of the purchase Authority, sublet, transfer or assign the contract or any part thereof or interest therein or benefit or advantage thereof in any manner whatsoever, provided nevertheless that any such consent shall not relieve the contractor from any obligation, duty or responsibility under the contract.

3.16 INTER/CHANGEABILITY OF PARTS

- 3.16.1** If against any item it becomes necessary to supply spare parts other than specified, the supplier/contractor shall be required to give the following certificate to the purchaser before arranging supply of spare parts bearing different parts numbers. If there is any obvious typographical or clerical error in the part number and /or description of any item, the supplier/contractor will supply the correct part. The aforesaid certificate should be supplied in such cases also. The supplier will furnish this certificate in either case, to the paying authority. No formal amendment is necessary in such cases.

- 3.16.2** "The changed part numbers are an exact replacement of parts ordered and are suitable for and will fit in equipment/machines and the existing fittings for which they are intended without in any way affecting the efficiency and quality of performance of the equipment/machines."

- 3.16.3** If however, the substitute spare part is not a bare replacement of the part originally ordered and involves a purchase of other items in addition, as would be the case when a kit is offered instead of one small item(s) forming part of the kit, the supply of the kit would be subject to the following conditions:-

- 3.16.3.1 The supply of the kit will be accompanied with a certificate that the manufacturer has definitely stopped supply of the spare parts but supplying only a kit.

- 3.16.3.2 The spares will not be supplied as kit unless prior acceptance of the same has been obtained from the purchaser.

- 3.16.3.3 In case the supply of the kit involves any change in the price and if so, the revised price would be stated for scrutiny and incorporation of the same in the supply order, if found acceptable.

- 3.17 Provided further that if any part numbers are declared by the purchaser to be unsuitable to the machines for which they have been supplied within 60 days from the date of arrival of the stores at site, the supplier/contractor will take them back at their own cost and expense.

3.18 BREAKAGE/SHORTAGE

- 3.18.1** Claim in respect of breakage/shortages, if any, shall be preferred on the supplier/contractor within thirty days from the date of receipt of stores at destination by Ultimate consignee which shall be replaced/made good by the supplier/contractor at his own cost.

- 3.18.2** All risk or loss or damage to the material shall be upon the supplier/contractor till it is delivered in accordance with the terms and conditions of the supply order.

3.19 DESIGNS, PATENTS AND ROYALTIES

If any material used or methods or processes practiced or employed in the manufacture of items to confirm with the requirement of the contract is/are covered by a patent(s) in respect of which contractor is not licensed, the contractor shall before using the material, method or process, as the case may be, obtain such license(s) and pay such royalty/royalties and license fee(s) as may be necessary. The contractor shall keep the Organization indemnified from and against any and all claims, actions demand and proceedings whatsoever brought or made against the Organization on the basis of any patent or infringement thereof claimed or otherwise relating to and arising from any method or process employed or matter or thing done to or in connection with any work executed by the contractor. Essential Elements of Scope of Work

1) PRESENT SYSTEM & WORKFLOW

The present DALET MAM infrastructure at DDK Mumbai has three servers viz., application server, Database server and Transcoder with required software and licenses, details mentioned below. MAM is integrated with the storage architecture at this Kendra which has 144TB of online storage (Quantum QXS-1200) and deep-archive storage in the form of LTO library with dual LTO-6 drive & 41 slots (Quantum Scalar i500). The file

system employed is StorNext 6.3 version with 15 numbers of SAN client licenses and unlimited numbers of DLC licenses. The HSM (StorNext Storage Manager) software with 50 slot license has also been implemented in the system, enabling online archiving and allowing policy-based data migration between storages/folders/deep archive storage.

The authentication and authorization of all users and computers to the above storage is taken care by a Domain controller implemented through Microsoft Active Directory installed in a dedicated server.

Two nos. of Adobe NLEs are provided with DALET Xtend Plug in for high resolution and proxy editing /packaging, contributing to the main transmission workflow.

Two nos. of simple editing machines with 'Dalet one cut' software is also networked and used for packaging.

Dalet Web space application/utility facilitates navigation through the entire cycle of media, beginning from ingest, to archive and distribution, and is also has many other features such as previewing, simple cut to cut packaging, etc.

The other NLEs of various brands such as Adobe Premiere, FCP, Avid, Velocity Es Xetc. are also integrated and are part of this network and are used for editing /packaging. The final edited and/or base-band-ingested/digitized file from most of these NLEs is pushed to the Storage by mounting certain folder of the Storage in the editing system. The few NLEs use web space for file transfer into MAM.

Two workstations with media players are used for Quality Control by manually previewing the digitized video files that has been pushed to the Storage, after success of which, the files are sent to Archive folder of the same Storage. The Archive folder is linked with the LTO library and the HSM-StorNext Storage Manager takes care of data migration.

All the above components contribute towards the Managed file-based workflow.

II. THE ARCHITECTURE OF THE MAM SYSTEM INSTALLED IN DOORDARSHAN KENDRA MUMBAI:

- a. Present Dalet MAM installed is equipped with and provides services like:
Transcode / proxy service, Web interface, Archive service, Database service, Data movement service, Application service, Editing functionality, Back office media operation, System administrative services, Workflow management service, SNSM HSM interface etc.
- b. The different service modules of the proposed MAM are distributed to three (3) physical servers. (Server details are mentioned elsewhere in this tender document).
 - For users to access the various services offered by the MAM, the system is enabled with various Dalet licenses such as
 - Concurrent web browser-based MAM client with Streaming server, File based ingest, Transcoding to Proxy, Transcoding to hi-res professional formats, Plugin for Adobe Premiere, Editing clients, Media Export, Interface for existing StorNext Storage Manager HSM having 2 tape drives, MSSQL license
- c. The system has a single integrated window/ web-based application where users can navigate through the entire cycle of media, beginning from ingest, to archive and distribution.
- d. The system supports MXF, AAF and QuickTime container/wrapper format for the archive content. Doordarshan Mumbai has adopted XDCAM HD422 format with MXF OP1a wrapper as a house format for its file based workflow and supports the same i.e. XDCAM HD422 with MXF OP1a wrapper in addition to other formats and wrappers mentioned in the tender document. The MAM system supports import / export to XDCAM HD422 format with MXF OP1a wrapper.
- e. The proposed system is integrated with the current Windows Server 2012 Active Directory installed for users and group management.
- f. The proposed system has windows-based operating system.
- g. Microsoft MSSQL is used for Database with the required licenses.
- h. The system runs on standard IT solutions.
- i. It has support for web and windows client for remote access.
- j. Supports integration with Manual QC presently. Has the provision to integrate automated QC in future.
- k. Has comprehensive metadata management with capability to add metadata fields, configure them per user rights and has advanced search functionality (thesaurus search).
- l. Supports integration with a wide range of NLE, Graphics, QC, Transcoders and other third-party systems.
- m. It supports full featured archiving with existing HSM (StorNext Storage Manager).
- n. It is Service-oriented architecture (SOA) compliant.
- o. It supports multi-platform automated content repurposing and distribution.
- p. The system has comprehensive administrative module that allows the administrator to control every aspect of the system from a centralized user interface.

III. FUNCTIONALITY OF THE MAM SYSTEM:

- a. The system is capable of storing not only media files (such as Video and Audio) but also other kinds of documents (such as Office doc, pdf, stills, subtitling files and graphics etc) as standard assets.

The system allows metadata to be assigned to these non-media assets in the same manner that it may allow for media oriented assets.

b. USER & GROUP MANAGEMENT:

- The proposed system has a centralized configuration of users and groups information that is added on top of the information provided from Active Directory. The information includes:
 - Personal information
 - Access right information to different areas in the solution
 - Layouts (Screens, shortcuts, colours, fonts etc.)
 - Metadata access rights
 - Specific module preferences
- The system is integrated with the present Active Directory for users and group management.

c. INGEST:

- Import of media in high resolution from watch folders, web upload or by dragging-and-dropping.
- The Watch folder is created in the present storage modules.
- Ingested material is automatically transcoded to low resolution browse quality files (streaming proxies) in MPEG H.264 which is subsequently available to the users. The proxy copy is frame accurate and time synchronized with corresponding high resolution ingested material.
- The proxy generation is natively supported by MAM i.e., the proxy is generated by its own transcoding engine.
- During the ingest process, users can add metadata to the ingested material.
- All ingested material (high resolution, browse quality etc) is stored in a centralized storage. The storage presently available is the StorNext system with *Doordarshan Mumbai*.
- Import video media, audio, images and other non-media files.
- File naming convention on the storage has been configured and is (for example to name the file with a combination of 4 metadata fields the file name has the form: name_date_source_departement)

d. TRANSCODING:

- The MAM has transcoding engine to generate proxy formats.
- The MAM provides transcoding solution to convert alien formats (WMV, MPEG, and AVI) to house format.
- The transcoding engine along with the MAM supports various formats such as HEVC, DPX, JPEG2000, XDCAM, DVCAM, AVC Intra, MPEG2 I frame, MPEG2 long GOP, D10, DV/DVCPRO/DVCPRO HD, ProRes, WM9, XAVC HD Intra etc., including those wrapped in MXF at the transcoding input side and at the transcoding output it should support formats like, H.264, MXF wrapped MPEG2 I frame, MPEG2 long GOP, DV, D10, ES, 3GPP, MPEG-2 program stream etc.

e. METADATA:

- The system supports flexible metadata schemas. The system allows addition, deletion and alteration of metadata fields through a dedicated user interface by the authorized person.
- The update of metadata fields can happen at any time during the project, even after the project is running for months/years.
- The metadata insertion is possible for entire video or for any portion of a clip.
- The update of metadata is transparent to the users and is not mandate system restart.
- The system allows unrestricted amount or type of metadata fields and does not restrict the metadata to certain predefined or fixed metadata schema.
- The system allows export/import of metadata from external system using XML.
- The system supports a configurable metadata with certain fields which is mandatory on the part of the user to fill up, without which the system will not allow the user to finish his work.
- The system allows inheritance of metadata from the parent media to sub-clips of the same parent media.
- For files rendered in the system, the child asset has inheritance of all metadata defined and respect the genealogy to have the ability to track where the asset is coming from.
- The system allows the user to add metadata to an asset regardless of its status (pre ingest, while ingest etc).

- All metadata updates by any user are immediately synchronized to all other users, without the system needing restart or refresh.
- The system indexes all the metadata fields and make available to all users for search operation.
- The search engine is embedded within the proposed solution. The search engine supports Boolean, fuzzy, controlled vocabulary and complex queries on the index.
- The system supports remote search via web based clients.
- The system is able to generate pdf reports based on different search criteria.

f. REMOTE CONNECTIVITY:

- The offered system has the functionality of access through Web of low resolution content and metadata.

g. QUALITY CONTROL (QC):

- As presently, the Technical Quality Control is done manually through in-house make and implementation of media player, the system allows relevant information to be entered into relevant fields by the user doing the manual QC, such that it is available to all other users to track progress of QC and allows the system take appropriate decision in the workflow.
- The process of sending media to the manual QC system is automatic, as well as provides means for users to send specific assets for manual QC.

h. EDITING FUNCTIONS: The system has the following editing tools each, via 2 clients.

- Allows editing in low resolution browse quality as well as high resolution quality if needed.
 - It has the option to preview the current EDL.
 - It supports giving access rights of any media to any user.
 - It allows multi formats to be rendered within a single EDL.
 - It supports rendering of the corresponding high resolution media files for the EDL created by editing of the proxy/low resolution media files.
 - It provides a set of shortcuts for fast editing.
 - The system allows for:
 - J-cuts and L-cuts
 - Edit/trim audio and video tracks independently of one another.
 - Simple transitions such as dissolve, wipes and squeeze etc.
 - Simple effects such as transparency, contrast/brightness/colour adjustments.
 - zoom effects.
 - Aspect ratio changes
 - Blur etc.
 - The system allows adjustment of audio levels, display of audio waveforms etc.
 - The system should support audio effect plugins such as VSTetc.
- In either case, whether the editing functionality is native to the MAM or through third party editing software, the editing service completely integrates with the MAM.

i. INTEGRATION WITH EDITING PLATFORMS:

- The MAM provides plugins for Adobe Premiere Editing platforms- 2 Nos.
- With the DaletXtend plugin installed, editing platform is capable to search the MAM database from within the editing software.
- The Adobe Premiere platform is capable of working with proxy and high-resolution media.

j. INTEGRATION WITH PRESENT ONLINE AND NEARLINE STORAGE AND ANY ADDITIONAL STORAGE IN THE FUTURE

- The system is seamlessly integrated with the online storage system consisting of Quantum Storage array of capacity 144TB with StorNext file system and is also able to control the present online storage system.
- The system is also seamlessly integrated with the present nearline storage (LTO-6 library with dual drive) with HSM (StorNext Storage Manager).The MAM provides API integration with the present HSM.
- The system supports and control any additional storage incorporated into the system and there should not be any additional licensing involved in case disk storage is expanded or any other disk storage is added.

k. ARCHIVE:

- The system is integrated with archive solution for near line and offline archives of media on LTO tapes inside a tape library.
- The system is efficiently handling the present HSM solution (StorNext Storage Manager) and efficiently managing the present LTO based library .The system is efficiently handling the StorNext Storage Manager for both archiving the high resolution content and also retrieve and give back efficiently the retrieved data to the online storage for repurposing.
- The system provides means for the authorized user to define rules according to which content will be sent or pulled from the archive
- The system should support integration of archive assets with any other type of assets such as production assets, in a way which is seamless to users. Different type of assets can remain in the same catalogue.

l. BACK OFFICE MEDIA OPERATION

- The existing system provides means to run media related operation in a back office server, in a way that does not disrupt user work i.e., users are not blocked from continuing their work while the system runs process such as transcoding, transfer of media etc.
- The system allows monitoring of all the back office operation through special interface/application enabling the user to view his jobs and monitor their status and progress.
- The existing MAM is able to control of StorNext Storage Manager (SNSM) HSM with back office rules based on changes of metadata including purge management of the storage.

m. MONITORING:

- The system provides in built administrative level monitoring solutions.
- The system allows monitoring tools to check the media job status of the system.
- The system allows monitoring of all back office media operation by authorized users through monitoring application / tool.
- The monitoring tool interface is customizable and administrator is capable of adding metadata fields, changing the job priority (low, high, urgent), cancel job, abort running job etc, if there are several items in the queue.
- The monitoring tool allows administrator to open the log file directly from the interface.
- The monitoring tool is always synchronized with back end media process and is accessible through windows or web client platform.
- The system allows the update of metadata field based on the job failure or success.
- The proposed system has a chat module that can be used between the users for sharing the content and notifications.
- A simple click on shared content inside chat module plays or opens the associated media.
- The system provides an graphical interface to see the linked or associated assets to monitor the relationship between them.

ii. WORKFLOW MANAGEMENT:

- The system provides a workflow engine, natively integrated within the MAM so as to leverage the metadata stored in the MAM.
- The workflow engine is able to mix user tasks, performed by human operators; with services tasks such as file conversion, file transfer etc.
- The workflow engine provides the following levels of workflow management.
 - Simple "rule based" workflow activities (for example: if the user drag and drops title X into category A, then convert the file to H.264 and archives the main title etc)
 - Graphically designed workflows by combining and organizing the simple workflow activities.
- The MAM workflow engine is advanced and has the capability to design workflow graphically and combine various user task/processes together.
- The workflow engine has the option of combining various user task and automatic processes for future purpose.

o. PHYSICAL SERVER CONFIGURATIONS:

As already mentioned in the "ARCHITECTURE OF THE MAM SYSTEM" it provides services like: Transcode/proxy service, Web service, Archive service, Database service, Data movement service, Application service, Editing functionality, Back office media operation, System administrative services, Workflow management service, interface with existing SNSM HSM having 2 tape drives.

The different service modules of the MAM are distributed to below three (3) physical servers with proper configuration.

- i) All the system management services such as System Administration services, Workflow Management services, Application services, Web services etc are installed in one physical server configured as:
 - Dual processor each Intel Xeon E5-2609v3 (1.9GHz/6-core/15MB)
 - 32GB (4 x 8GB) DDR4-2133 RAM
 - 2 numbers of 300GB 6G SAS 10K rpm SFF (2.5-inch) Enterprise HDD
 - Quad GigE
 - 12Gb 2-port FIO SAS controller
 - Redundant 500 watt power supply
 - Rack mounting kit
 - Microsoft Windows Server 2012 R2 standard edition
 - 21 inch colour LED monitor, keyboard and mouse.
- ii) The Database service is installed in one physical server configured as:
 - Dual processor each Intel Xeon E5-2609v3 (1.9GHz/6-core/15MB)
 - 32GB (4 x 8GB) DDR4-2133 RAM
 - 11 numbers of 300GB 6G SAS 10K rpm SFF (2.5-inch) Enterprise HDD
 - Quad GigE
 - 12Gb 2-port FIO SAS controller
 - Redundant 800 watt power supply
 - Rack mounting kit
 - Microsoft Windows Server 2012 R2 standard edition
 - 21 inch colour LED monitor, keyboard and mouse.
- iii) The Transcoding/proxy service, Back office media operation, is installed in one physical server configured as:
 - Dual processor each Intel Xeon E5-2650v3 (2.3GHz/10-core/25MB)
 - 32GB (4 x 8GB) DDR4-2133 RAM
 - 2 numbers of 300GB 6G SAS 10K rpm SFF (2.5-inch) Enterprise HDD
 - Quad GigE
 - 8Gb 2-port PCIe Fiber Channel Host Bus Adapter
 - 12Gb 2-port FIO SAS controller
 - Redundant 500 watt power supply
 - Rack mounting kit
 - Microsoft Windows Server 2012 R2 standard edition
 - 21 inch colour LED monitor, keyboard and mouse.

IV. INSPECTION:

The bidder may visit to inspect the existing Dalet MAM system before pre-bid meeting, if felt necessary.

V. GUARANTEE :

- a. The complete MAM system software and services including all Applications softwares/drivers/ plug-ins/utilities /all functions ,features, etc., should be guaranteed for **one year (12 months)** of trouble free operation from the date of commencement of this AMC. In case of any item or equipment softwares, Application Softwares / drivers / plug-ins/utilities / functions/features, etc. failure within this period, the same shall be rectified/fixed free of cost to *Doordarshan Mumbai* at the site. The guarantee includes services for all present softwares/ drivers / plug-ins/utilities /all functions & features and proper functioning (with all features) of all the modules of the complete system as mentioned in the tender.
- b. The bidder should visit and inspect the installation at the site once in every 3 months to ensure smooth working of the system. The bidder should offer on-site support as and when required during the period of AMC.

VI. ELIGIBILITY

The bidder should have an experience of handling at least one similar type of Dalet MAM Application in the last 5 years with any Govt.organisation/Public sector/Private sector. etc.
